

Name: _____

Word Problems

Answer the word problems. Draw pictures to show your understanding.

1. Amy watched T.V. for 30 minutes before dinner and 10 minutes after dinner.

How long did she watch altogether?

A large, empty rectangular box with a hand-drawn, slightly wavy border, intended for the student to draw a picture showing their understanding of the first word problem.

2. Mary ate 5 cupcakes and Sally ate 10. How many more cupcakes did Sally eat than Mary?

A large, empty rectangular box with a hand-drawn, slightly wavy border, intended for the student to draw a picture showing their understanding of the second word problem.

3. It took Jim 25 minutes to mow the lawns on Monday and only 15 minutes on Tuesday. How much time did he save on Tuesday?

A large, empty rectangular box with a hand-drawn, slightly wavy border, intended for the student to draw a picture showing their understanding of the third word problem.
